CS 535 Homework 4
Due: October 8 (W), in class.

Undergraduate students, answer problems 1, 2, 3. Graduate students, answer all
problems. All of this weeks exercises are from the book.

- C-2.15
- C-2.21
- C-2.32
- C-2.23. Here’s an example: the union of intervals [1, 2], [0.5, 3], [6.1, 6.5], [2, 5.6]
is another set of intervals [0.5, 5.6], [6.1, 6.5]. (Hint: You have to first sort your
input.)
